SIXTY-SIXTH ANNUAL REPORT

OF THE

DIRECTORS

OF THE

Boston & Maine Railroad

TO THE

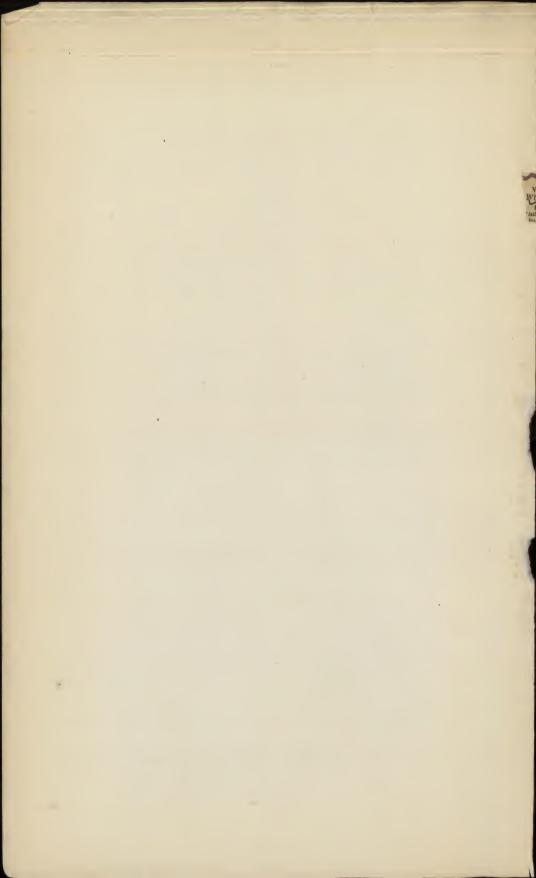

STOCKHOLDERS,

FOR THE

YEAR ENDING JUNE 30, 1899.

WEDNESDAY, OCT. 11, 1899.

BOSTON:
RAND AVERY SUPPLY COMPANY, PRINTERS.
1899.

BOSTON AND MAINE RAILROAD.

The Annual Meeting of the Stockholders of the Boston and Maine Railroad will be held in the City Hall at LAWRENCE, Mass., on WEDNESDAY, October 11, 1899, at 10.30 o'clock A.M., for the following purposes:—

I. To hear and act upon the Report of the Directors.

II. To elect Directors for the ensuing year.

III. To see if the Stockholders will approve a purchase by this Company of the road, franchises and property of the Portsmouth and Dover Railroad upon the terms and conditions agreed to by the directors of the respective corporations.

IV. To see if the Stockholders will approve a purchase by this Company of the road, franchises and property of the Portland, Saco and Portsmouth Railroad Company upon the terms and conditions agreed to by the directors of the respective corporations.

V. To see if the Stockholders will approve a purchase by this Company of the road, franchises and property of the Portland and Rochester Railroad upon the terms and conditions agreed to by the directors of the respective corporations.

VI. To transact any other lawful business.

By order of the Directors,

WILLIAM B. LAWRENCE, Clerk.

BOSTON, Sept. 7, 1899.

Stockholders only will be passed free to and from the place of meeting, on exhibiting their certificates to the conductors.

Stockholders are requested to take passage in the trains provided for them, and thus avoid the annoyance to passengers by crowding the regular trains.

Stockholders residing upon any of the leased lines will be passed to and from Lawrence, on the day of the meeting, upon the presentation of their certificates to conductors.

Stockholders going from either direction beyond Lawrence, before the adjournment of the meeting, will be charged regular fares between Lawrence and the stations to which they take passage.

The special stockholders' trains will leave Dover at 8.00 a.m., and Boston at 9.10 a.m., for Lawrence; and will leave Lawrence for Boston at 12.15 p.m., and for Dover at 12.30 p.m.

Stockholders from Portland and stations east of North Berwick will take the train which leaves Portland at 7.00 A.M.; and returning to stations between Rollinsford and Portland, will take the trains which leave South Lawrence at 1.45 and 4.58 P.M.

Stockholders from the line of the Eastern Division, east of Salem, will take the train which leaves Portsmouth at 7.20 a.m., and change cars at Salem, where they will find a special stockholders' train, which will leave Salem for Lawrence at 9.10 o'clock a.m.; and stockholders on the Eastern Division west of Salem can take any of the morning trains arriving at Salem before 9 o'clock a.m., and at Salem change to the stockholders' train. Returning, stockholders' train will leave Lawrence for Salem at 12.45 p.m.

Stockholders from Northern Division will take the train leaving Sanbornville at 6.40 A.M., and change cars at Rochester and Dover, taking the main line train at Dover for Lawrence at 8.00 A.M.

Stockholders from the Southern, Concord, White Mountains or Passumpsic Divisions will take any of the regular trains arriving in Lawrence before 10.30 A.M. on the morning of the meeting, and return by any of the regular P.M. trains.

By order of the Directors.

OFFICERS

OF THE

BOSTON & MAINE RAILROAD.

DIRECTORS ELECTED OCTOBER 12, 1898.

SIXTY-SIXTH ANNUAL REPORT.

To the Stockholders of the Boston and Maine Railroad:

The following report of the operation and financial condition of your property for the fiscal year ending June 30, 1899, is respectfully submitted.

The Gross Transportation Earnings for the year ending June		
30, 1899, were	\$19,890,607	51
Operating Expenses (66.659 per cent)\$13,258,930 11		
New Equipment		
Air Brakes, Automatic Couplers and Train Air		
Signals		
Total Operating Expenses (69.121 per cent)	13,748,644	53
Net Transportation Earnings	\$6,141,962	98
Other Income	699,221	25
Net Income	\$6,841,184	23
Taxes \$1,069,454 68		
Revenue Stamp Tax 36,194 29		
\$1,105,648 97		
Interest on Debt		
Rent of Leased Lines	5,493,939	69
Surplus of Net Income over fixed charges	\$1,347,244	54
Sinking Fund Payments, less Bonds cancelled	67,829	52
Balance available for Dividends	\$1,279,415	02
DIVIDENDS DECLARED FROM EARNINGS OF THE YE	EAR.	
Preferred Stock, paid September 1, three per		
cent \$94,494 00		
Preferred Stock, paid March 1, three per cent 94,494 00		
Common Stock, paid October 1, one and one-		
half per cent 261,253 50		
Common Stock, paid January 2, one and one-half		
per cent 261,253 50		
Common Stock, paid April 1, one and one-half per		
cent		
Common Stock, declared payable July 1, one and		
one-half per cent		
Total	1,234,002	00
Balance in excess of all Charges and Dividends	\$45,413	02
		,

The business of the year as compared with that of the previous year is as follows:—

year is as follows:—				
RECEIPTS.	1899.		1898.	
From Passengers		24	\$8,461,640	45

past year was	10,644,3			
An increase of	372,5			
Number of tons carried One Mile	719,460,5			
An increase of	31,109,3	82		
		_		

^{* \$155,710.80} Removing Ice and Snow, transferred from "General Expenses of Transportation" to "Maintenance of Way and Buildings" for purposes of comparison.

The prevalent industrial depression that continued throughout New England during the first nine months of the fiscal year, affected somewhat unfavorably the Company's revenues for that period; but during the last fiscal quarter a satisfactory improvement in general business conditions took place that offset the decreases of the earlier months, and gave a total increase in receipts for the year, as compared with those of the year preceding, of \$106,678.50.

The policy of expending for general improvements all surplus earnings in excess of the amounts required for six per cent dividends upon the common and preferred stock, the sinking fund deposits, and a reasonable sum to be credited to the profit and loss account, has been continued; and a statement of the larger sums thus expended, and included in the year's operating expenses, is appended:

New buildings and yards at passenger and freight stations	\$69,666	96
New steel bridges	28,967	25
Ballasting and raising 77 miles of track	66,735	05
New equipment	372,350	31
Train safety appliances required by U. S. Statute	114,925	36
Total	0.280.011	
Total	8652,644	93

Additions to capital account have been made only for the following expenditures:—

the following expenditures:—		
Purchase of the property, rights and franchises of the Eastern		
Railroad in New Hampshire	\$480,517	50
Land purchased and applied to the Company's uses	18,466	16
Land purchased but not yet applied to Company's uses		83
Separation of grade crossings completed during the year	62,927	20
	\$669,636	69
Less land and Harbor Transfer Barge disposed of	6,410	00
Net increase in Construction and Real Estate accounts	\$663,226	69

The Trustees of the Eastern Railroad Company have been paid \$103,517.82, and have purchased therewith and cancelled mortgage Certificates of Indebtedness to the par value of \$86,973.30, and this Company's funded debt, reduced by the latter amount, now stands at \$21,305,-333.61. To the Trustee of the Sinking Funds for the redemption of the Boston & Maine Railroad Improvement

Bonds, \$51,285.00 has also been paid, and that fund is now \$867,728.68. The Company has no floating debt.

The purchase of the property, rights and franchises of the Eastern Railroad in New Hampshire, extending 16.08 miles through New Hampshire, from the State line of Massachusetts to the State line of Maine, hitherto operated under lease as a part of the main line of the Eastern Division of this Company, which was authorized by statute and approved by votes of the stockholders of both Companies at special meetings called for that purpose, was consummated as of the first day of June, 1899. Eastern Railroad in New Hampshire on that date passed out of existence as a separate Company, and was merged in and became a part of the Boston & Maine Railroad. To make this purchase, the issue of 4,801 \$875 shares of new Boston & Maine common stock, to be exchanged for the 7,3871 shares of stock of the Eastern Railroad in New Hampshire, has been authorized; the exchange being upon the basis of \$100.00 a share for Boston & Maine stock and \$65.00 a share for Eastern stock.

Up to June 30, 5,104½ shares of Eastern stock had been taken up and cancelled, and 3,259 shares of Boston & Maine common stock and \$5,892.50 in Boston & Maine scrip given in exchange therefor. Since then 1809 shares of Eastern stock have been dealt with in like manner, so that at the date of this report only 474 of its shares remain outstanding. Rental payments on Eastern stock ceased June 1st, 1899.

Through this purchase the authorized capital stock of this Company has been increased 4,801 \$\frac{875}{1000}\$ shares, and now stands at 222,140 shares, consisting of 31,498 shares of preferred and 190,642 of common. This Company owns, however, 13,168 shares of its common stock, upon which no dividends are paid. Of this ownership 9,452 shares are deposited with the Trustees of the Eastern Railroad Company, as collateral security for the payment of its Certificates of Indebtedness due in 1906, and the remaining 3,716 shares are in your treasury.

The 208,972 shares (excluding those owned by this

Company) were on June 30th held by 6,308 shareholders. Of these, 4,168 resided in Massachusetts and owned 135,472 shares; 1,337 resided in New Hampshire and owned 34,112 shares; and 457 resided in Maine and owned 14,202 shares. The remaining 25,184 shares were owned by 346 persons residing outside the above-named States.

Your directors have also agreed with the directors of the Portsmouth & Dover Railroad, the Portland, Saco & Portsmouth Railroad Company, and the Portland & Rochester Railroad, for the acquirement by purchase, as of the first day of January, 1900, of all the property, rights and franchises of those companies, and these agreements to purchase will be submitted for your approval at the annual meeting.

These agreements provide for the issue of 26,835 shares of new Boston & Maine common stock, which are to be given in exchange for the entire capital stock of the purchased companies respectively as follows:-5,915 shares in exchange for 7,690 shares of the stock of the Portsmouth & Dover Railroad; 15,000 shares in exchange for a like number (15,000) of shares of the stock of the Portland. Saco & Portsmouth Railroad Company; and 5,920 shares in exchange for a like number (5,920) of shares of the stock of the Portland & Rochester Railroad. The shares of the purchased companies are to be taken up and cancelled, and no rentals or dividends will be payable thereon after January 1, 1900, the purchased companies being as of that date merged in the Boston & Maine Railroad, and the holders of their stock becoming holders of common stock in your Company.

The Portsmouth & Dover Railroad is capitalized at \$769,000.00 (7,690 shares at par \$100.00), and it has no debt. It extends from Portsmouth, N.H., to Dover, N.H., 11 miles, and owns valuable terminals in each of those cities. It is leased to your Company until January 1, 1924, at an annual rental of \$6.00 upon each share of its capital stock — a total rental of \$46,140.00 per annum.

The Portland, Saco & Portsmouth Railroad Company extends from Portsmouth, N.H., to Portland, Me., 50.76

miles, and it owns extensive and valuable terminals, together with a considerable area of wharf property in Portland. Its capital is \$1,500,000.00 (15,000 shares at par \$100.00), and it has no debt. It is operated by your Company under a perpetual contract, at an annual rental of \$90,000.00, i. e., \$6.00 upon each share of its stock.

The capital stock of the Portland & Rochester Railroad is \$592,000.00 (5,920 shares at par \$100.00), and there is a funded debt upon a portion of its Portland terminals of \$113,500.00, the annual interest upon which, at the rate of four per cent, is guaranteed by your Company. It is operated under its own management, but is controlled by this Company through its ownership of 4,821 of its 5,920 shares of capital stock. It extends from Rochester, N.H., to Portland, Me., 52 miles, and at the latter place owns a large amount of developed and undeveloped terminal and wharf property. It has for many years paid regular semi-annual dividends at the annual rate of \$6.00 a share, and has earned a considerable additional surplus in each year which it has expended in permanent improvements upon its property. With its purchase all of its income, gross and net, will come into your treasury.

Through the purchase of the Eastern Railroad in New Hampshire, already consummated, and the proposed purchase of the Portsmouth & Dover Railroad and the Portland, Saco & Portsmouth Railroad Company, of which your directors now recommend your approval, annual fixed charge rental payments to the amount of \$158,640.00 will be forever discontinued, and your Company will become owner in fee of both of its main lines from Boston to Portland, of all of its terminals in the latter city, and of the Portland & Rochester Railroad, the only other parallel line entering Portland.

In the fiscal year 1893–4, as the result of perhaps the most severe and widely extended financial and commercial stringency that New England has ever experienced, the gross income of your property decreased, as compared with previous and more highly prosperous years, about \$1,200,000.00, and as this decrease in gross caused a rela-

tive decrease in surplus, your directors, wisely, as they think, at once met and dealt with this emergency in your affairs by reducing the common stock dividend twentyfive per cent, or from \$8,00 to \$6.00 a share - a total decrease in the surplus divided of about \$350,000,00 per annum. Although occasional partial revivals in business conditions have from time to time seemed to promise a return of the Company's former prosperity, there has been no permanent fulfilment of these promises until within the past six months, and your directors have considered it the part of wisdom to continue the dividend at the reduced rate adopted in 1893, and expend the remaining surplus in needed permanent improvements upon your property. Now, however, it is their belief that the long hoped for improvement in your affairs has come, and come to stay, and that the increases in gross and net income now being received, warrant a reconsideration of the dividend question from the point of view of these improved conditions. They have therefore decided to raise the rate of the common stock dividend to \$7,00 a share, and the distribution thereof authorized for October 2d will be upon that basis.

During the fiscal year the following-described new equipment has been added: 20 locomotives, 3 baggage cars, 238 freight cars, and 6 snow plows, at a total cost of \$377,465.31; from this has been deducted \$5,115.00 received from the sale of old equipment, leaving a net expenditure of \$372,350.31, which has been, as previously stated, included in operating expense.

The equipment consists of

671 locomotives.

1,206 passenger, baggage, mail and express cars.

11,791 freight cars.

252 caboose cars.

220 tool and road cars.

62 snow-plows.

For the reader's convenience, some of the larger items of operating expense, which are given in detail in the annexed tables, are here collated: For repairs of locomotives, \$488,701.80; of passenger, baggage, mail and express cars, \$470,130.44; of freight cars, \$354,317.02; of road-bed and track, \$1,618,196.69; steel rails laid, \$322,254,68 (less value of old rail taken up and profits on old rail sold in excess of inventory value, \$221,135.79), net \$101,118.89; ties laid, \$390,023.36 maintenance of bridges, \$233,960.69; of buildings and structures, \$352,635.88; ballasting 77 miles of track, \$66,735.05. Eighty-five miles (10,637 tons) of new steel rails have been laid in main tracks, and eighty-nine miles (9,441 tons) of partly worn steel rails have been laid in branches and sidings; 1,019,138 cross ties and 30,684 switch ties have been laid, and 21,584 rods of fence built during the year.

New passenger stations have been constructed at Beverly Farms, Mass., Somerville Junction, Mass., Woburn Highlands, Mass., Byfield, Mass., Deerfield, Mass., Parkers, N.H., North Haverhill, N.H., West Lebanon, N.H., Powwow River, N.H., and McIndoes, Vt.

The United States statute requiring certain safety appliances upon trains carrying interstate traffic becomes effective January 1, 1900. To comply with the terms thereof will require of us the equipment of less than seven per cent of our freight cars with automatic couplers and about five per cent of our locomotives with power brakes, which will be easily accomplished within the allowed time. In this fiscal year \$114,925.36 has been expended for these purposes and charged to operating expense, and during the four years July 1, 1895, to June 30, 1899, a total of \$745,000.00 has been likewise expended (an average of \$186,000.00 a year) and included in the yearly operating expense.

For separating highway grade crossings \$117,062.82 has been expended, of which amount \$5,436.79 has been collected from the Commonwealth of Massachusetts and other parties participating in the cost, and \$31,378.29 has been charged to leased roads. Work of this nature has been completed during the year, and the accounts thereof closed to the amount of \$62,927.20, and the construction

account is thereby increased, as appears in the general balance sheet. The total of this expenditure to June 30, 1899, less amounts contributed by the Commonwealth of Massachusetts and others, is \$815,841.60.

Of the fund created for the improvement of the Concord & Montreal Railroad, as fully explained in previous annual reports, \$27,068.14 has been expended during the year, leaving on June 30, 1899, an unexpended balance of \$249,108.37.

The construction of a second track upon that portion of the main line of the Eastern Division between Salisbury. Mass., and Greenland, N.H., has long been imperatively needed for the economical and expeditious operation of the train service thereon; but as this was a part of the property of the Eastern Railroad in New Hampshire, operated under a lease, the terms of which imposed all expenditures of this nature upon the lessee and gave the results thereof to the lessor at the end of the lease without reimbursement to the lessee, the whole matter has been postponed until necessary changes in the relations between the lessor and lessee could be brought about. These changes have now been accomplished by the purchase of the lessor property as above explained, and your directors have now authorized the immediate construction of this second track and the separation of all the public highway crossings thereon, thirteen in number, at an estimated cost of \$400,000. It is expected that this work will be completed not later than July 1 of next year.

The need of a more cleanly substitute for bituminous coal as fuel for passenger locomotives, and one that will minimize the present risk of fires from locomotive sparks thrown upon property adjacent to the roadway, has long been felt. To use anthracite coal has, until recently, been the only alternative; but this, while much more expensive, is difficult of use under ordinary conditions, and is, upon the whole, far from satisfactory. Within the past few months the New England Gas and Coke Co., whose works are near this Company's tracks in Everett, commenced the production of coke of high grade, which was offered us

in such quantities and upon such favorable terms that the experiment of its extensive use in passenger locomotives was at once undertaken. One hundred passenger and switching locomotives are now being regularly and exclusively fired with coke, and the results have been so satisfactory in every detail that its use is to be extended to a larger part of the passenger service as rapidly as the slight changes necessary thereto can be made. Experience has demonstrated that its cost will not exceed greatly, if at all, that of bituminous coal, while its general superiority in steam producing qualities, and its freedom from smoke, dust, cinders and sparks, justify the belief that the extent of its introduction on other parts of the Boston & Maine system will be limited only by the quantity the manufacturer can supply.

The somewhat recently discovered method of laying the dust of the roadway by sprinkling with oil has also been quite extensively tried on various sections of the system. The material used is one of the by-products of petroleum distillation, which is spread upon the roadway by means of a sprinkling device attached to a flat car, pushed ahead of a locomotive at a speed of about three miles an hour. The first application penetrates the surface of the roadway to the depth of about three inches, and its viscous consistency retards its evaporation, and gives permanent and satisfactory results in laying and adhering together the dust particles that under normal conditions are thrown up in clouds by the motion of passing trains. About 2,000 gallons of the fluid are required for each mile of single track, costing at the present price of the material, including the patentee's royalty, about \$100.00 a mile. Present experience indicates that an additional sprinkling will be necessary in each of the two succeeding years, and that thereafter no further sprinkling will be required for a period of at least five years. This treatment has thus far been applied only on those parts of the system where passenger traffic is most dense, and passenger trains most frequent. About 400 miles of track have thus far been sprinkled.

This combination of coke-burning locomotives and oil-sprinkled track has immeasurably increased the comfort of the Road's customers, and there is good ground for believing that the adoption of these two improvements in operation will result in such savings in wear and tear of equipment and structures, in weeding and other track work, and will so diminish spark fires, that their added cost will be thereby largely, if not wholly, offset in the operating expense account.

For more complete information as to the details of the condition and administration of your property, reference may be made to the annexed reports of the General Auditor, the Trustee of the Sinking Funds, and the Trustees of the Eastern Railroad Company.

By order of the Board of Directors,

LUCIUS TUTTLE,

President.

BOSTON, MASS., Sept. 7, 1899.

REPORT OF THE GENERAL AUDITOR.

Boston and Maine Railroad,
Accounting Department,
Boston, Aug. 24, 1899.

To the President and Directors of the Boston and Maine Railroad.

Gentlemen: I herewith hand you statements showing in detail the results of the operation of the Boston and Maine Railroad for the year ending June 30, 1899. The cash on hand, as stated in the balance sheet, was counted by me and found to be correct, and all securities in the custody of the Treasurer were duly verified.

No. 1. Statement of Earnings, Expenses and Disposition of Net Earnings for the year.

No. 2. General Balance Sheet.

No. 3. Capital Stock and Funded Debt.

No. 4. Profit and Loss Account.

No. 5. Gross Earnings in Detail.

No. 6. Operating Expenses in Detail.

No. 7. Description of Road.

No. 8. Stocks and Bonds Owned.

No. 9. Mileage and Traffic Statistics.

No. 10. Classification of Tonnage.

No. 11. Description of Rolling Stock.

No. 12. Performance of Locomotives.

No. 13. Report of Trustee of Sinking Funds for redemption of Boston and Maine Improvement Bonds.

No. 14. Report of Trustees Eastern Railroad.

All of which are respectfully submitted.

WILLIAM J. HOBBS,

General Auditor.

No. 1.

EARNINGS, EXPENSES AND DISPOSITION OF NET EARNINGS FOR THE YEAR ENDING JUNE 30, 1899.

Transportation Earnings.	Per Cent.	Earnings.

WILLIARD P. PHILLIPS, CHARLES R. CODMAN, CHARLES U. COTTING,

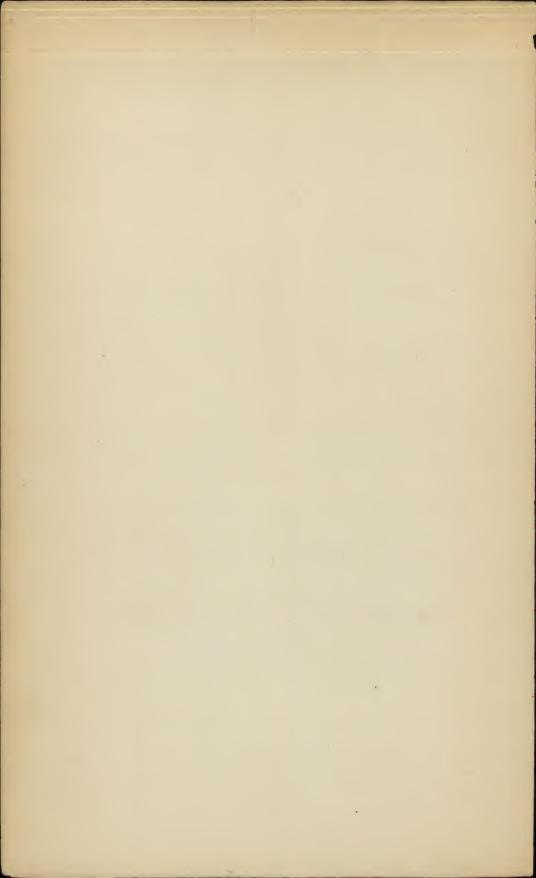

BOSTON, JUNE 30, 1899.

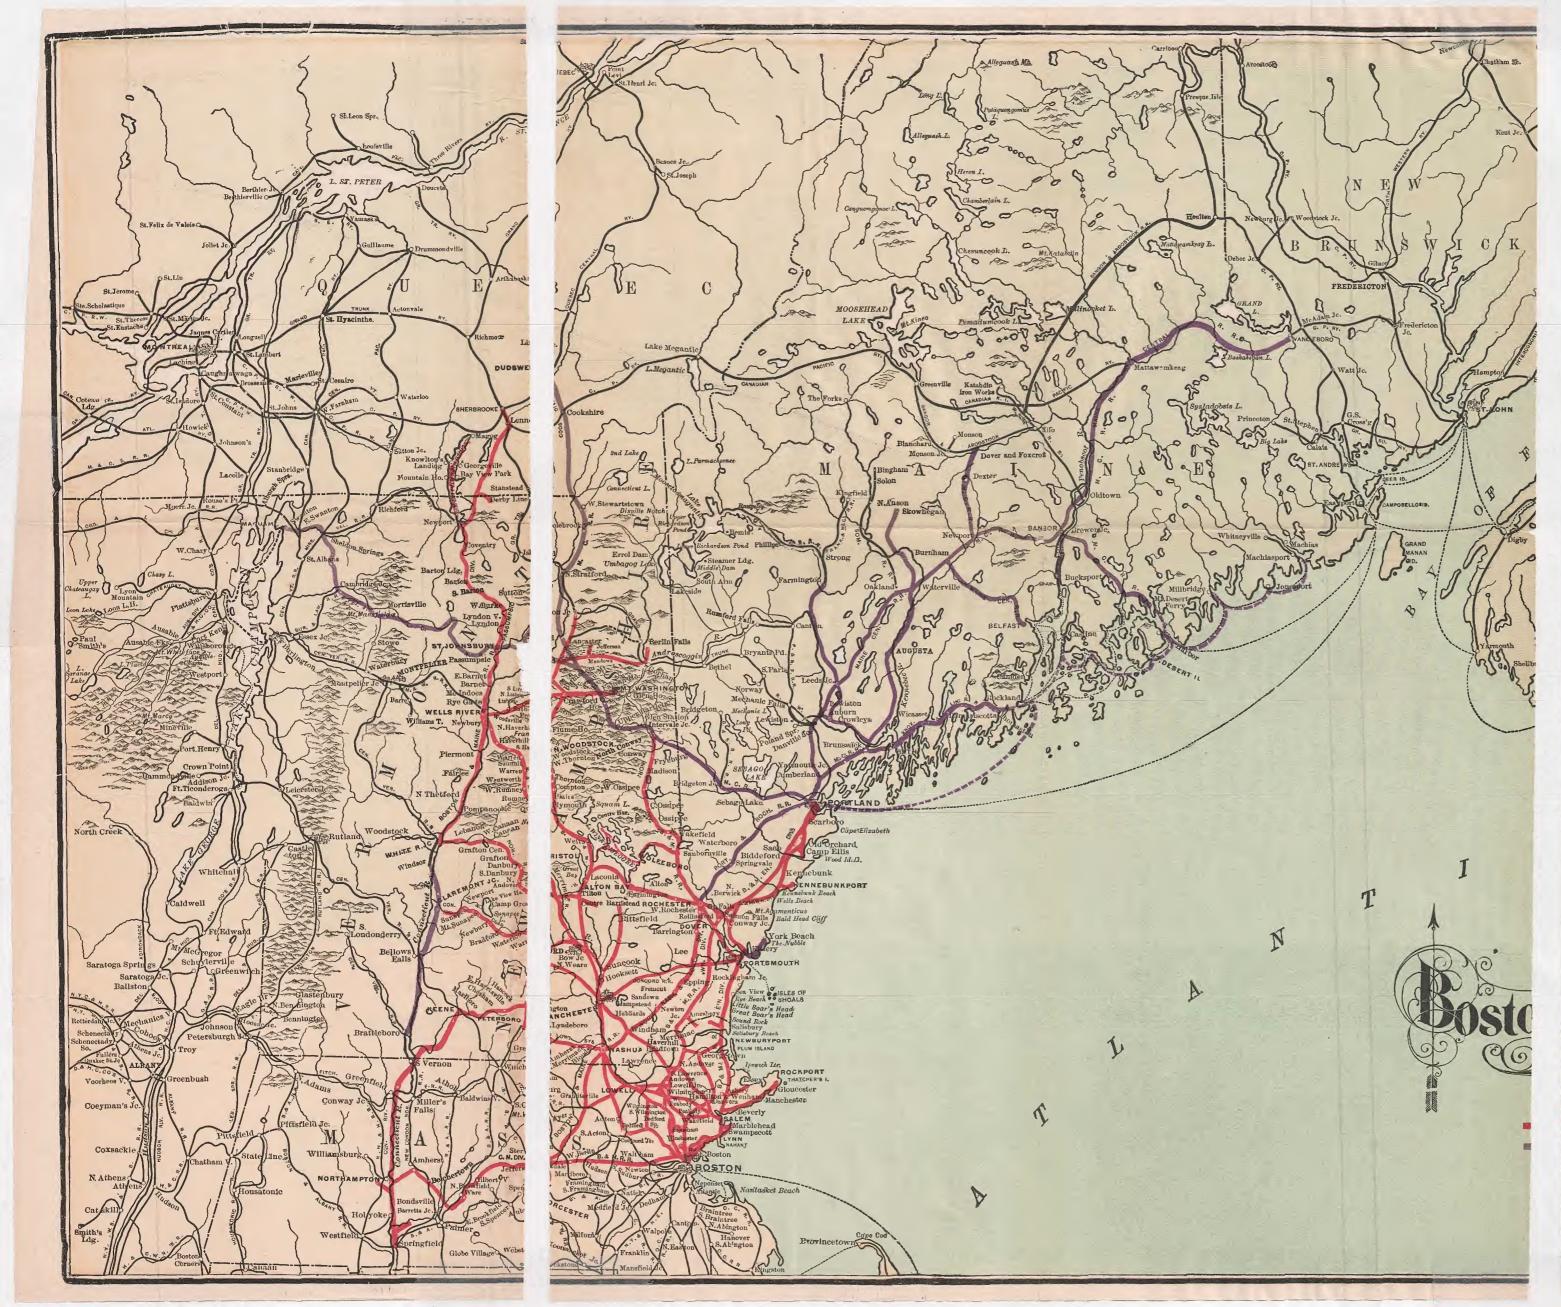

We hereby certify that the Mortgage Certificates of Indebtedness of the Eastern Railroad Company, issued by us and outstanding on the thirtieth day of June, 1899, were as follows:—

The above shows a decrease from amount last reported of \$86,000 and £200, being certificates purchased under provisions of Chapter 373 of the Acts of 1888, by written request of the Corporation.

WILLIARD P. PHILLIPS, CHARLES R. CODMAN, CHARLES U. COTTING,

BOSTON, JUNE 30, 1899.

1898-99.
